Thakazhi Peedika Family Restaurant · 16 October 2026

Uniform design pack

Four polos (green, black, navy, maroon) and two cook aprons (black and charcoal), all with the yellow logo and tagline

> **Status: concept for approval.** Pages 4 and 6 are the garments to match: four polos and two aprons. The small English under the logo in those photographs is not part of the design. Do not print it. Print the real yellow Malayalam logo with the Family Restaurant tagline. The flat sketches are only for the millimetre position.

What is in this pack

Page	What
2	The brief on one page, and the questions only you can answer
3	The black polo, with the logo position to the millimetre
4	The green, black, navy and maroon polos side by side, and the logo on each colour
5	Logo size and position for every polo size
6	The black and charcoal cook aprons, logo centred on the bib
7	Colours, with RGB, CMYK and nearest Pantone
8	Print and embroidery methods compared, and what is best when the tagline must be kept
9	What the printer must receive, what still needs a designer, and the approval steps
10	A quote request to send to printers, and the order sheet

Files that go with it

- **logo/**: the full logo with the tagline as vector (SVG and PDF), a transparent PNG, a version without the tagline, and one-colour black.
- **drawings/**: every drawing in this pack as an SVG, with and without dimension marks.
- **Printer-quote-request.txt** and **order-sheet.csv**: to copy into an email and to fill in.

What is decided

- Four separate polos: green, black, navy and maroon. Each is one plain colour, with the collar, cuffs and buttons in the same colour. Three buttons. No chest pocket.
- Two aprons: one black, one charcoal grey. Same cut. One pocket. Strap, ties and edges match the body.
- Every garment carries the yellow Malayalam logo **with the "Family Restaurant" tagline**. On the polos it sits on the wearer's left chest. On the aprons it is centred on the bib, above the pocket.

What I assumed. Tell me if any is wrong

- The polo has no pocket, as in the reference. If you want a real pocket, tell the printer, because the logo is then printed on the pocket piece before it is sewn.
- The apron pocket is one compartment, not two. The logo is centred, not on the left of the bib.

The brief on one page

Item	Colour	Logo	Position	Method I would ask for
Polo 1	Green. Collar, cuffs and buttons green	Yellow, full logo with tagline, white base under the yellow	Wearer's left chest, 90 mm wide	Screen print or DTF. Embroidery only with a redrawn tagline (page 8)
Polo 2	Black. Collar, cuffs and buttons black	Yellow, full logo with tagline	Same	Same
Polo 3	Navy. Collar, cuffs and buttons navy	Same, with a white base under the yellow	Same	Same
Polo 4	Maroon. Collar, cuffs and buttons maroon	Same, with a white base under the yellow	Same	Same
Apron 1	Black. Strap, ties and edges black	Yellow, full logo with tagline	Centred on the bib, 100 mm wide, above the pocket	Plastisol screen print, or embroidery with a redrawn tagline
Apron 2	Charcoal. Strap, ties and edges charcoal	Same, with a white base under the yellow	Same	Same

Questions only you can answer

#	Question	Your answer
1	How many polos in each colour, and the size split (order sheet, page 10)?	
2	Who wears which colour? Page 4 has a suggestion	
3	Are the green, navy, maroon and charcoal shades on page 7 right? Send a photo or a swatch if not	
4	Short or long sleeves? Women's cut as well as unisex?	
5	The polos are drawn with no chest pocket. Do you want one?	
6	How many black aprons and how many charcoal aprons?	
7	Do you want names or roles added, for example "CHEF" on the back or sleeve? The pack leaves the back plain	
8	Budget per piece, and the date you need them by	
9	Do you have the original logo file (AI, EPS, SVG or PDF) from whoever designed it?	

The black polo

The green, navy and maroon polos are the same garment in their own colour (next page). Yellow logo and tagline on the wearer's left chest. Three buttons. No pocket.

Front view. The logo sits on the wearer's LEFT chest, which is the right of this picture.

Flat sketch to scale. Red marks are the logo position on a size L.

Style	Short sleeve polo, knitted collar, 2 or 3 button placket	**Colour**	One colour. Collar, cuffs and placket match the body. Buttons tonal
Fabric	Pique knit, 65% polyester and 35% cotton, 200 to 220 g/m², or 100% cotton pique of the same weight. Breathable for a hot kitchen	**Cuffs**	Same colour rib
Details	Side vents, taped shoulder seams, tagless neck print with size, care label inside the side seam	**Fit, sizes**	Regular unisex, women's cut optional. XS to 3XL
Logo	Yellow, full logo with the tagline, 90 mm wide on size L. Page 5 gives the size and position for every polo size.		

> Measure the logo position from the **high point of the shoulder** where it meets the neck, and from the **centre front line** of the placket.

Green, black, navy and maroon polos

These are the four polos. Same shirt, same logo place, four colours. Ignore the small English under the mark in the photograph. It is not the tagline.

Green

Black

Navy

Maroon

> Yellow logo on the wearer's left chest. Collar, cuffs and buttons match the body. Three buttons. No chest pocket. On green, navy and maroon put a **white base under the yellow**.

Colour	Suggested for
Green	Floor and service
Black	Kitchen support and floor
Navy	Manager and supervisors
Maroon	Cashier and counter

The split is only a suggestion.

Logo size and position

These are starting values for a left chest logo on every polo, in all four colours. A printer's size chart and a physical sample decide the final position, so check the sample against this table.

Polo size	Logo width	Logo height	Top edge below the high point of the shoulder	Centre of logo from the centre front
XS	80 mm	65 mm	120 mm	95 mm
S	80 mm	65 mm	125 mm	95 mm
M	85 mm	69 mm	128 mm	98 mm
L	90 mm	73 mm	130 mm	100 mm
XL	95 mm	77 mm	135 mm	103 mm
2XL	95 mm	77 mm	138 mm	105 mm
3XL	95 mm	77 mm	140 mm	108 mm

Rules

- The logo is level and square to the garment. No tilt.
- Keep 8 mm clear around it. No seam, label or print closer than that.
- Keep the proportions. Width to height is 402 to 327. Never stretch.
- Do not recolour the logo. It is one colour, yellow.
- The tagline stays on every garment. At 80 mm wide it is about 3.5 mm high, so print it. See page 8.

If you want a pocket

- Put the logo on the pocket, centred, 20 mm below the top seam of the pocket.
- The printer prints the pocket piece before sewing it on.
- Ask for a pocket sized for a 90 mm logo, about 125 mm wide.

The logo file used

Full logo with the tagline

The cook aprons

Black and charcoal. Same cut. Logo centred on the bib, above one pocket. Ignore the small English under the mark in the photograph.

Black

Charcoal

Style	Full bib apron, adjustable neck strap, waist ties	**Colours**	Black, or charcoal. Strap, ties and edges match the body
Size	About 90 cm long and 70 cm wide at the hem. One size, ties adjustable	**Strap, ties**	Adjustable strap with a strong slider. Ties about 110 cm each
Fabric	Poly-cotton drill or canvas, 65% polyester and 35% cotton, 300 to 340 g/m². Hard wearing and easy to wash hot	**Pocket**	One pocket, centred, as drawn
Seams	Double stitched, bar tacks at pocket corners and strap joins	**Logo**	Yellow, full logo with tagline, 100 mm wide by 81 mm high
Position	Centred on the bib. Top edge 70 mm below the top of the bib, above the pocket.		

Best method for an apron: plastisol screen print, which keeps the tagline sharp and survives heat, steam and hot washes. On charcoal, use a white base under the yellow. Embroidery is possible with a redrawn tagline (page 8). Avoid heat transfer vinyl near a stove, because it can lift.

Colours

Colour	Hex	RGB	CMYK (approx.)	Nearest Pantone	Used for
Logo yellow	#FFE20A	255, 226, 10	0 / 11 / 96 / 0	Pantone 803 C or 107 C	Logo and tagline on every garment
Black	#121212	18, 18, 18	0 / 0 / 0 / 93	Pantone Black 6 C	Black polo and black apron
Green	#1E5B38	30, 91, 56	67 / 0 / 38 / 64	Pantone 3435 C	Green polo
Navy	#242A40	36, 42, 64	44 / 34 / 0 / 75	Pantone 2767 C	Navy polo
Maroon	#652329	101, 35, 41	0 / 65 / 59 / 60	Pantone 1815 C	Maroon polo
Charcoal	#4C4A47	76, 74, 71	0 / 3 / 7 / 70	Pantone Cool Gray 11 C	Grey apron

Treat these as starting values. The yellow is exact from the logo file. Green, navy, maroon and charcoal are matched to the reference photograph, not to a swatch book. The Pantone numbers are the nearest I can name. Ask the printer to match a physical Pantone textile swatch and send a sample before you approve.

Why these shades

- **Black** hides splashes and makes the yellow strongest.
- **Green** is the deep green in the reference. It does not fight the yellow.
- **Navy** is a dark navy, not the brighter dashboard blue.
- **Maroon** is the wine red in the reference.
- **Charcoal** is the second apron, the same cut as the black one.

Thread and ink

- Print: one yellow ink, on a white base under it. The tagline is cut out of a yellow pill, so the base must not spread into the letters.
- Embroidery, if used: one yellow polyester thread (for example Madeira Polyneon or Isacord) so it survives hot washes. The embroiderer picks the shade closest to the logo yellow.

Print and embroidery methods

Method	Look and feel	Detail it can hold	Lasts	Best for
Screen print (plastisol)	Flat, slightly raised, solid yellow	Very fine. The tagline prints cleanly	Long, if cured correctly	All six garments, in numbers of about 50 or more
DTF (direct to film)	Thin, soft, full colour	Very fine. The tagline prints cleanly	Good. Can crack if over-stretched	Polos in smaller numbers, and quick runs
Embroidery (needs digitising)	Raised, premium, thread texture	Letters under about 4 mm are hard. The tagline is about 4 mm and cut out of a pill, so it must be redrawn	Longest. Survives hot washing	Polos or aprons if you accept a redrawn tagline
Heat transfer vinyl	Smooth sticker feel	The tagline is too fine to cut and weed well	Can lift in heat and steam	Not recommended
Sublimation	Dye in the fabric	Fine	Long	**Not suitable.** It does not show on these dark fabrics

What I would ask for, with the tagline kept

Garment	First choice	Second choice
Four polos	Screen print (50 or more) or DTF (fewer), on a white base	Embroidery with a redrawn tagline
Two aprons	Plastisol screen print. White base on the charcoal	Embroidery with a redrawn tagline and a firm backing

> **The tagline decides the method.** "FAMILY RESTAURANT" is about 4 mm high at 90 mm wide, white-on-yellow cut out of a small pill. Print holds it. Thread cannot hold it cleanly. If you want embroidery, the designer redraws the tagline in plain bold letters at least 5 mm high, which makes the pill and the logo larger, about 110 mm wide, or sets the tagline as a separate line under the mark.

An embroidered logo of this size usually runs to several thousand stitches. The digitiser gives the real count and charges once per design. Ask for the stitch file to be handed to you so you can reuse it.

What the printer must receive, and the approval steps

Send the printer

- The logo as vector: PDF or SVG (in logo/), and the AI or EPS from a designer once cleaned.
- Colours as spot colours with the Pantone references (page 7).
- This pack, especially pages 3, 4, 5 and 6, and the drawings (SVG).
- The fabric and colour of each garment, and the quantities and sizes (order sheet).
- The wash and care you need (below).

Ask the printer for

- A written quote for each method, per piece, with set-up costs shown separately.
- Their own artwork proof showing the logo on each garment colour, for your approval.
- A physical pre-production sample of one polo in each colour and one apron in each colour.
- The time from approval to delivery, and the minimum order per colour.

Still needs a designer

- **Clean the logo.** The vector is traced automatically from a small image. Edges are slightly irregular and there are tiny nicks. A designer should redraw it smoothly. If you have the original artwork, send that instead.
- **Make the embroidery version** if you choose embroidery, with a redrawn tagline, and digitise it. The embroiderer normally does this.
- **Match the colours** to a Pantone swatch.
- **Convert all text to outlines** and supply 1:1 artboards.

Approval steps

#	Step	Who
1	Answer the questions on page 2	You
2	Send this pack and the quote request (page 10) to three printers	You
3	Compare the quotes on the same basis: method, quantity, fabric, delivery	You
4	The designer cleans the logo, and the embroiderer digitises it if embroidery is used	Designer, printer
5	Check the artwork proof against pages 3 to 6	You
6	Receive and check the physical samples (checklist below)	You
7	Sign off in writing, then production	You, printer
8	On delivery, check a sample from each size and colour before paying the balance	You

Sample checklist

- Logo position measured: 130 mm below the high point of the shoulder, 100 mm from the centre front (size L)
- Logo on the wearer's left, level, not stretched
- The tagline is sharp and readable, and the yellow is even on each colour
- No puckering around embroidery. No loose threads
- Print edges sharp, no cracks after a gentle stretch
- Fabric weight and feel as ordered
- Wash test: 5 washes with no fading or lifting

Care wording for the label

- Polo: machine wash 40°C, turn inside out, do not bleach, low iron on the reverse, do not iron the logo.
- Apron: machine wash 60°C, do not bleach, tumble or line dry.

Quote request and order sheet

Copy this into an email to each printer. Attach this pack, the logo folder and the drawings folder.

Subject: Quote request, staff polos (green, black, navy, maroon) and cook aprons (black, charcoal), Thakazhi Peedika Family Restaurant, Thiruvananthapuram

Please quote for: (1) staff polo shirts in four colours, green, black, navy and maroon, and (2) cook aprons in black and charcoal, as in the attached design pack. Please quote screen print and DTF for the logo, and embroidery if you can hold the tagline, per piece, with set-up and digitising shown separately.
1. Garments: fabric, weight, colours and sizes as on pages 3 to 6 of the pack. Please send fabric swatches.
2. Quantities: polos green ___, black ___, navy ___, maroon ___ (sizes in the order sheet); aprons black ___, charcoal ___.
3. Logo: yellow, full logo with the "Family Restaurant" tagline, 90 mm wide on the polo (wearer's left chest) and 100 mm wide centred on the apron bib, positions as on pages 5 and 6. The vector files are attached. Please tell us if the artwork needs cleaning, and what you charge for it.
4. Colours: please match to Pantone and send a colour swatch before production. Please use a white base under the yellow.
5. Please provide: an artwork proof, one pre-production sample of each item and colour, the minimum order per colour, the time from approval to delivery, and payment terms.
6. Delivery to: _____ by _____.

Order sheet
